

Special Products

Lath Brush

Lath Brush - Ref: LB37
Lath Carrier - Ref: LC37

LB37 and LC37 can be purchased separately.

Plastic section with filaments punched directly into the stock. Designed to fit on working table surfaces to enable fragile items such as sheets of glass etc. to be handled without scratching.

Lath Brushes are intelligent systems which make production stages more efficient. Supplied in 2m lengths. Lath Brush and Lath Carrier to be purchased separately and are priced as separate items.

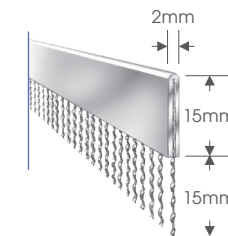

Antistatic Brush

Manufactured using stainless steel yarn and carbon fibre, ideal for discharging static energy. Hairs can be cut to length.

Available in 2 types; **stainless steel yarn** or **carbon fibre Antistatic Brushes** supplied in 1m lengths with a 15mm trim.

Both with an integral backing tape.
